Hosted VoIP

WHAT IS HOSTED VOIP?

Simply put, Hosted VoIP is an all in replacement for traditional telephone systems where your handsets and calls are managed over an Internet connection.

Managing your telephony in the cloud retains all the features you are used to yet brings many additional benefits:

Fixed Monthly Costs

With bundled minutes and handsets included

Easy to Manage

Make instant changes through a secure web interface

Flexible

Add users and features easily

One Number Anywhere

One telephone number for several devices

Number Continuity

Bring your current number to Exa Voice

Easy Setup

Handsets are delivered fully configured and ready to go

Emergency Continuity

Cloud telephony means you can make & receive calls even if your physical site loses connectivity

Support

Fully supported by our in-house award winning-team with no maintenance charges

Headline Prices (including 100 minutes bundle):

Functional User	Monthly	24 months	11.80
Fixed User	Monthly	24 months	13.80
